Please give some examples of why you are or why you are not satisfied with the direction of the Dunalashka Corporation.

Lands and Resources:

What do you feel is the best use of OC's lands and resources?

Do you have any ideas, suggestions or recommendations on the best use of OC lands and resources?

Do you think OC is too focused on conservation of OC lands, too focused on development, or do you think the focus is a good mix of the two?

Communication:

Overall impression of the Elder Pointer newsletter.
 Elder Pointer has the right balance of corporate, culture and Shareholder information.
 Elder Pointer needs more about people.
 Elder Pointer needs more about culture and politics.
 Elder Pointer needs more about corporate business.
 Elder Pointer is sent out too infrequently.
 Elder Pointer provides very valuable information.
 Announcements in the mail, job openings, etc.
 Annual report.
 Shareholder informational meetings.
 Dunalashka Corporation website: www.dunalashka.com

Were you aware that descendants of all OC Shareholders are eligible for OC education and training scholarships?

Demographic Questions:

55 returned.

What year were you born?

When did you become an OC Shareholder?

How did you receive your stock? (Original Shareholder, Gift, inheritance, List all that apply)

How many shares do you own?

What community, State, City, or Country do you live in currently?

Gender

Original: 20 Gift: 10 Inheritance: 28

Unalaska: 11 Alaska: 13 Other: 22

Male: 32 Female: 17

Is there anything we can do to improve the Annual Banquet?

Yes, different menu.

No, overall doing a wonderful job. :)

Keep up the good work on it.

Don't know enough about.

Designated seating for elders.

Invite less businesses.

No comment.

No.

Never attended, out of state.

Have never attended.

Have more seafood.

More native cultural food - if non natives don't care for it, so what we would.

A way to view for people who can not attend.

Please give some examples of why you are or why you are not satisfied with the direction of the Unalaska Corporation.

I'm satisfied.

Terry is asked for help way too much. In order for Unalaska to grow OC needs to open land up for recreational use: paint ball/motorcycles, give more for young people to do, not this too much insurance stuff.

We need a elderly dividend program and land made available to shareholders.

Should invest in more profitable things.

I would like to see the elders receive dividends to assist with what limited income some of us may be receiving.

Strong community/Shareholder support and focus.

Give the elders more assistance.

I like my dividends and feel that gifting or inheriting is okay and should not be changed.

One can not be satisfied with the excellent performance and direction of the Corporation since the beginning.

Really appreciate the Edna P. McCurdy Foundation.

Okay.

I am satisfied with the current planned direction.

Need to have more Unalaska gatherings or functions.

They seem to be doing a good job.

I'm happy with the progress being made in the Corporation with the new building in Anchorage being bought.

You are doing a fine job.

I know almost nothing about the above honestly, as long as I get a dividend and don't hear anything detrimental about the Corporation doings I am happy. I have no experience with the scholarship or other programs.

You're doing a good job, keep it up.

The only disappointment I have is that my sister - brother are shareholder members, I inherited 20% of my Dads shares yet when I was given a late files, chance, I was turned down because the Board determined I was not 1/4 or better, plus I feel when I appealed no one listened.

I am happy to support the Corporation's past and present, business and cultural activities. Continuation and development of the Corporation's profit opportunities will enable oportunities to support essential continuation of Edna P. McCurdy, Camp Q etc.

Land management, need hotel outside of Unalaska/Dutch would be very beneficial. Donate the tribe some land for tribal hall.

Good dividends, good scholarships.

Homes needed.

I'd like higher dividends.

Flying the CEO out of town on a monthly.

Would prefer more long range view to development - jumping in bed with oil is very short sighted.

Not enough culture is being important to the Corporation. We need to teach our young how important the pride of being a Aleut. This also starts at home.

Happy for there real estate investments. Need to focus on involvement in youth activities in Unalaska get them involved early and keep them away from drugs/alcohol. Or offer internships with native owned and operated places in Anchorage. Stop they dynasty in the Directors, stop it. Where is our land? What are the boundry's? Need to get direct deposit, safer and faster.

I think there should be more land leasing. It's just sitting there and I'm upset about the euthanization of the horses, even if they did damage the land naturally.

What is the direction? Making sound investments in what? Don't know if you are listening to shareholders. List everything the Corp is involved in and let u s know how the investments are doing.

What do you feel is the best use of OC's lands and resources?

Really don't know.

More housing, recreational use.

Lease more - and make land "camp home" available to shareholders.

More housing for shareholder - low income housing.

Well for one it should be developed for low income families who don't make that much in salary.

Sustainable fisheries!

No opinion.

Can't do much as it is, because no help from the City on utility development.

You are doing it.

Business development to provide shareholder income as well as providing jobs to natives.

Don't know.

Okay.

Economic land development on owned land (Chain).

Let shareholders own or lease, need homes for shareholders.

Sell some lots to shareholders, build something we can proudly call our OC building.

The board seems to be doing a good job.

Leasing out land and look for ways to create more jobs.

Hunting and fishing.

Cultural preservation and profits.

More recreation and some land for shareholders have a place to ride their four wheelers.

I am not living there to observe.

Leasing.

Save for development.

Homes.

Don't know enough about it to comment.

On the future dividends it seems to be going up. Hopefully it will keep on going up for many years to come.

Carefully managed development.

Leasing land - I think we need a dirt bike area.

Leasing.

Need more stuff for our shareholders families open to shareholders bowling alley.

Investment = lease. Quality of life = land use for other.

Have shareholders use to start own business by leasing affordable land, buildings.

Long term lease and or rental.

Give it to the individuals, or sell or lease to foreign business.

Building for businesses and other local growth through the increase in construction of buildings.

Do you have any ideas, suggestions or recommendations on the best use of OC lands and resources?

No.

Board needs to look better into recreational land use, look for insurance, not just take Terry Turners word on it.

Make our outlying land available for shareholder camp sites.

Housing.

I would like to see OC look into purchasing land or one with a hotel/motel for shareholders to have a place less costly to stay.

No.

Unless we get help from the City, I guess it stays storage areas unless the developers say for improvements.

Maybe have environmental services to help with the oil companies while still protecting our lands and other areas around AK. And to be prepared for the worst if it should happen so we can protect our resources.

No.

Resort, hunting, fishing, hotel, income producing businesses.

No.

Okay.

Economic land development on owned land (Chain).

Give land to original shareholders.

Build buildings and lease. Need a nicer larger gathering place.

None.

Not at the moment.

No.

No.

I feel that shareholders that have shares should get some land for fish camp.

No opinion.

Open up land for more recreation, build warehouse at boat harbor for individual businesses.

Save.

Homes.

Don't know enough about it to comment.

Do your best to help Fukushima, Daiichi disaster out for our future.

No.

? Are we doing it.

You're doing great!

Homesites, cabins, camping sites - Horseback riding, skiing - Snowmobiles.

All the above help by mentoring younger people - Aleuts - to preserve their culture but we have to be the example.

Something for the youth to do.

If the corp doesn't have the money to develop then let foreign investors in. If we knew where our land is maybe us old timers can help you plan.

Hotel, local businesses, bars, etc.

Do you think OC is too focused on conservation of OC lands, too focused on development, or do you think the focus is a good mix of the two?

Too focused on conservation of the land.

Don't know.

Yes and no, insurance is an issue but work with it some how.

Good mix.

It's okay.

I'm not up to par with that area.

Good mix.

No opinion.

Just don't conserve to much. We do need development.

I think we are right where we should be.

Good mix of the two.

Good mix.

Okay mix.

Mix of the two.

Seems to be a good mix.

Economic land development on owned land (Chain).

Yes, need land for shareholder home sites.

OC can save some land but they should sell land at a reasonable price to shareholders.

Good mix.

I think OC is on the right track.

Good mix.

Good mix of the two.

It is both.

No opinion.

Good mix of the two.

Too focused on conservation of land yes.

No, good mix.

Too focused on development.

Don't know enough about it to comment.

Focus is good between the two and helps us out in the end.

Good mix.

Good mix of the two.

Too focused on development.

Good focus.

Too focused on conservation.

Yes, too afraid of lawsuit.

Mixture of both.

Okay mix.

Put the land to use. There are a lot of good areas near Dutch Harbor that the locals don't know, the old timers who scouted the area know.

Too focused on land conservation. Our town needs to expand and grow, which in turn will happen to OC.

Do you have any recommendations to improve how the Foundation provides services to Shareholders?

Better communication.
New board members.

No.
We are thankful for this scholarship was very useful for our son. Thank you. :)

No.
No. Good process with great support.

Maybe to help shareholders start up, teach, run a small business and of course get a piece of the pie, for the services.

Haven't used this yet.

Pay for some day care for single parents, as well as pre-school.
Don't know much about the scholarships but they are a good help for students.

No.

Would be good if there were scholarships for student who can only attend school part time, a lot have kids and jobs.
More funding for off campus housing.
No.

No, I think they are doing an excellent job my brother and my nieces are both taking advantage of these scholarships.
None at this time send me more paperwork!
No.
No.

When an application arrives - have your monthly meeting, don't postpone because of quantity of applications.
Job education, classes to teach a skill. Find out what the shareholder interests are. We can't keep complaining about them and not give them a "push" to help them.
None.
No.

Were you aware that descendants of all OC Shareholders are eligible for OC education and training scholarships?
